The Montana Angus News is the official publication of the Montana Angus Association and is available to anyone interested in Montana's Angus cattle. However, advertising is restricted to those raising Angus cattle in the state, those consigning Angus bulls to Midland Bull Test or people servicing cattlemen with their business located in Montana.

Since the magazine is not subject to subscriptions, the only feasible way it can be mailed is at bulk rate; therefore, advertising for events scheduled within 18 days of publication will be accepted only at the advertisers risk, and this publication will assume no financial responsibility for distribution on its entire circulation prior to that time.

Finally, the information contained is from sources deemed reliable, but is not guaranteed.

For details on subscriptions and advertising please contact:

Jesse Thompson

Angus enthusiasts,

The Annual Breeders Directory is always one of my favorite issues to put together. It's also, without a doubt, the largest project of the year. While it takes months of planning and coordination, it's incredibly rewarding because this publication highlights the breeders who are the foundation of the Montana Angus Association and the Angus industry across our state.

One of my favorite parts of putting together this issue is learning more about the operations that host the Montana Angus Tour. Every ranch has a unique story, rich history, and family legacy behind it. It's a privilege to share those stories and introduce our members to the people whose dedication and hard work continue to move the Angus breed forward.

Inside this Directory, you'll find everything you need to know about the 2026 Montana Angus Tour, which will be hosted in the Havre area from September 22-24, 2026. From ranch profiles and tour information to schedules and local details, we hope this guide helps you prepare for another outstanding event. Whether it's your first tour or your fiftieth, you'll enjoy exceptional Angus cattle, meaningful conversations, and the friendships that make this Association so special.

On behalf of the Montana Angus Association Board of Directors, our volunteers, and everyone who helps make the tour possible, thank you for your continued support. We hope this Directory serves as a valuable resource throughout the coming year, and we look forward to seeing you on the Montana Angus Tour this fall.

Happy Trails,

Jesse Thompson

JC HEIKEN ANGUS & SONS

20TH ANNUAL PRODUCTION SALE
TUESDAY, FEBRUARY 23, 2027 1:00PM

MILES CITY LIVESTOCK COMMISSION MILES CITY, MONTANA

BALRDIGE KEYNOTE K378

Keynote combines elite phenotype, structural integrity and a balanced genetic package.

His progeny are proving themselves with added growth, muscle and maternal strength while maintaining calving ease and functionality. Keynote continues to leave a consistent, high quality set of cattle.

RFM
RON FRYE MARKETING
406.600.7514

Havoc, a Vermilion B2 son, is a powerful herd sire that combines rugged phenotype, added performance and structural soundness in a complete package. He stamps his progeny with extra muscle, eye appeal and functional maternal traits while maintaining the kind of consistency commercial cattlemen appreciate.

HEIKEN HAVOC 4041

AAA 20968934

HEIKEN STOCKMAN 4043

AAA 20954761

This Incentive son is a stout, practical sire designed for cattlemen who value performance, maternal strength and longevity. His progeny are deep-bodied, structurally correct and easy fleshing with the kind of disposition and functionality that fit real-world ranch conditions.

2 Families, 2 Ranches, one common goal...Offer a Longterm, Non-Terminal breeding philosophy aimed at improving our customer's bottom line through the effectiveness of one's cowherd. The challenges of navigating the cow/calf business as young commercial producers brought us together to form our Registered Seedstock operation Fitzsimmons Baltrusch Angus Ranch "FBA Ranch". Our first opportunity to acquire registered cattle with maternal merit arrived in 2018 with the purchase of our Embryologist Kathy-Creighton Smith's registered herd in Chinook, MT and again in 2022 with the purchase of the Master Angus herd owned by Gene Ryg and Vinee Cox of Chinook, MT. Today we own and operate around 200 Registered mother cows. These cattle carry a long history of McCumber, Emulation, Ohlde and Traveler Blood lines. We continue to develop and breed this herd

with maternal effectiveness as our top priority. We offer around 45 yearling bulls in our annual production sale in Havre MT on the first Monday of April. On behalf of FBA Ranch and all the other breeders of North Central

Montana we welcome you and hope you appreciate the kind of cattle produced in some of the most demanding environments in the United States.

Wednesday, September 23rd

Hould Angus

J Bob & Ruby Hould

58921 Davey Rd • Havre, MT 59501

(406) 395-4441

www.HouldAngus.com

Angus Enthusiasts, welcome to North Central Montana and the Highline. It can be a cruel and unforgiving place to raise cattle but that isn't the case this year. And we are all very thankful for the break.

Hould Angus Ranch is located about 10 miles Southeast of Havre Montana, along little Box Elder Creek. The ranch is very diverse in topography and range conditions, with mountain grass and abundant freshwater springs roaring 300' above the plains. Just 10 miles away, at our home place, you will find

sagebrush and prairie grasses in abundance where the water is not. The weather here is also just as diverse as the landscape. Many winter days we see warmer temperatures compared to the Milk River Valley. We catch a lot of chinook winds that allow us to graze out much longer than the ranches 10 miles North of us. It's hard to explain and harder to believe until you see it with your own eyes.

My wife Ruby and I are very blessed to have five great kids Jessy, Tyler, Tucker, Hunter and Cole. And have added a daughter in law (Kaylee) and two grand daughters (Hadley and Harper) into the mix now as well. Without their help from the very beginning none of this would have been possible.

OUR CATTLE

For the last 26 years at Hould Angus, we have turned against the mainstream hype of great arithmetic behind each cow. Rather, we have developed a herd of cattle that will survive and excel in our environment by using maternal genetics with maternal integrity.

What is Maternal Integrity? Take a look into Angus Journals and stud books from the last two decades and you will see the ridiculous amount of bulls promoted to everyone as the future maternal giant of the breed (because of great arithmetic). Then, look at how many of those greats have completely fallen on their faces, only to leave commercial producers high and dry. We have done our due diligence and driven countless miles to physically evaluate daughters of the sires that we use at Hould Angus. This is one of many things numbers can't evaluate but your eye can. With this philosophy and a lot of patience, we hold out and let the dust settle before we utilize the sires in our program.

For two decades now the nations cow herd has been bred and designed for the feedlot and against the design of the range cow. We believe that it is time for the maternal Angus cow to make a comeback. With fads and trends of mainstream Angus breeders and AI studs, it has become very evident that the high EPD cattle are not designed for an environment that requires them to be self-sufficient and last well into their teens in production. Is there a place for these cattle? Yes, I definitely believe so. But is it in a ranch scenario that requires cattle to be moderate in size (4.5-5.0 frame), deep bodied, extremely easy keeping and fertile? All of this without a heavy supplement? NO! I don't believe it to be possible to achieve in volume.

We are not anti-EPD or DNA but stand on the side of caution with our desire to utilize them as a true breeding tool. With AAA playing with the numbers on a weekly basis, it makes it very hard for us to rely on them as

much as many breeders do. To each their own, but we will choose to carry on as we have for now.

Our annual bull sale is the first Saturday in April. We sell 70+~ bulls and 20 registered yearling heifers annually through this sale and have started making the transition into selling straight 2 yr old bulls in the very near future. Visitors are always welcome and again, Welcome to North Central Montana.

Pike Cattle

Bryan Pike

(406)-788-5952

Bpike4@hotmail.com

www.PikeCattle.com

Pike Cattle would like to welcome you to the 2026 Montana Angus Tour and appreciate the opportunity to once again display on the tour. I am honored to be part of the breakfast stop with Hould Angus.

My cows are pastured in the Bear Paw Mountains south of Havre. The core of my herd originated from a few foundation cows from Sitz Angus and Ox Bow ranch. Along the way I've added the influence of McCumber, Ohlde, Sinclair, and Redland Angus. Cows are culled deeply with strict criteria on functional traits. They must be efficient, possess the proper rib design and capacity, with ideal udder structure. The harsh environment of North Central Montana provides plenty of stressors that serve as a genetic sorting stick.

As input costs rise and labor pool dwindles, it becomes increasingly important to produce "rancher friendly" cattle that can work problem free. This means efficiency, fertility, longevity, mothering ability/intelligence, and structural soundness must be at the forefront. I've tried to stay disciplined in my breeding decisions through the years. Attempting to breed "like cattle" to "like cattle" and avoiding fads. I feel this creates the predictable angus female. This year's calves are primarily sired by McCumber Edge of Glory 464 (#21156681), Redland Roscoe (#20139774), and Redland Tremendous 98 (#20767603).

Bulls are developed at Hould Feedlot in Malta and have been marketed through the Milk River Angus Sale for the last 20 years. Next spring, they will be marketed through an April production sale as well. I am passionate about the type of cattle I raise and would be happy to visit anytime! Once again, welcome to North Central Montana and hope you enjoy the tour.

Math Farms

Bob & Rena Math • Cody & Michelle Math
11096 N Forks Rd • Whitewater, MT 59544
(406) 674-5562 • math5@itstriangle.com
www.MathFarms.com

The Math family homesteaded this place in 1915, 50 miles north of Malta and 17 miles north of Whitewater, Montana. Back then, the country along the Canadian border was much busier than it is today, with little towns like Corwin Center, Plainsview, and Greve scattered across the prairie. Our family immigrated from Canada and settled on the place where Bob and Rena still live today.

Six generations and more than 111 years later, we're still here, farming the same country and raising cattle.

In the 1950s, Henry and Edna Math developed a herd of purebred Hereford cattle that became well known throughout the area. They were also dedicated 4-H leaders in the Whitewater community. In the late 1960s, their son Ben and his wife, Judy, began expanding the operation. Ben purchased a place just two miles from the Canadian border, broke out several thousand acres, and continued growing the farm. Crops were always his passion, but in the mid-1980s he decided to start collecting a few registered Angus cows.

Around the same time, Bob and Rena—while raising their three kids, Cody, Kevin, and Tasha—took over Henry and Edna's ranch and began transitioning away from the Hereford herd while building a purebred Angus program alongside Ben. They sold bulls by private treaty for many years before holding their first production sale in 2008.

Cody acquired most of Ben's cattle in 2002 and moved to Ben's place when he retired in 2008. Cody married Michelle in 2011, and together they began raising their four children—Aidree, Adalynn, Harrison, and Hudson—on the ranch. In 2021, they started Math Farms Beef to provide locally raised, 100% Angus beef.

We believe our quiet cattle and low-stress handling produce a superior beef product. Today our beef is served at the steakhouse at Sleeping Buffalo Resort and shipped to a steadily growing customer base across the country.

In early 2024, Cody and Michelle, with the help of Kevin, expanded the operation again by purchasing an irrigated property in the Milk River Valley along Highway 2. After more than a century of dryland farming, it was time to establish a dependable hay base and a more centralized base for the outfit.

We raise our cattle the same way most people do in this part of the country. Northeastern Montana is a land of extremes, and if cattle can thrive here, they can thrive just about anywhere.

We just keep it simple and select cows that do their job. Calving begins in late January, so we expect good mothers with great udders and quiet dispositions. The cows that breed early, stay fleshy, and raise a good calf every year earn another chance. We prefer feminine, angular females with plenty of capacity, good running gear, and a nice Angus head.

We hold our Annual Production Sale on the second Saturday in April at the Glasgow Stockyards in Glasgow, Montana. We like bulls that are sound, square to the ground, and built to work, and above all-quiet.

We welcome you to the Montana Angus Tour and are excited to host you. We look forward to showcasing calves by Math Northern Pacific, Black Rifle, Ultra, GDAR Clipper, and Hilltop Frontier.

Hinman Angus

Dave & Yvonne Hinman
PO Box 220 • Malta, MT 59538
(406) 654-1809 • (406) 654-4656
www.HinmanAngus.com
hinmanangus@hotmail.com

We purchased 20 heifers in 1973 – we've come a long way since then. 53 years later – more cows, more land and more family. We lived in Willow Creek, Montana for over 20 years. We started selling bulls private treaty and consigned to the South Montana Angus Association bull sale annually. In 1988, along with Papa Ranch, Rollin' Rock and Cedar Hills Angus, we formed a group called Performance Breeders. We sold our bulls in the PB sale for 21 years.

In 2000 we moved to Malta where we purchased the ranch we live on today. Our son-in-law, Billy Lulloff, and daughter, Heidi, and their two young children, also moved with us to Malta, and are now in partnership with us on the ranch. Their son, Tyler, along with his wife, Sascha, and their two children, are also on the ranch, where Ty is becoming a major contributor to HA.

We run approximately 400 cows and also have a strong embryo transfer program. With no reservation, we have always stressed the mother cow end of the business. We also stress the importance of breeding balanced trait cattle that will do all things well.

We will have our 40th annual bull sale at the ranch, on the first Tuesday in April next year. We will be selling approximately 175 yearling bulls. As usual, we will also sell some females by private treaty.

During our many years in the Angus business, Yvonne and I have both been involved in local, state and American Angus Associations and have each served as officers.

At the Tour, we will have displays showing you a good cross section of the HA program. It will include cows with bull calves and cows with heifer calves, along with some two-year-old pairs, and a large group of bred heifers. We will also have some herd bulls on display.

We will be serving lunch on the second day of the Tour, September 23. Our family is looking forward to hosting the Montana Angus Tour for our 7th time and we welcome you to our ranch!

Kel McC Angus

Kelly McCracken

32215 Hogeland Rd. • Turner, MT 59542

kelmccan@itstriangle.com

(406) 262-2347

Welcome to the 2026 Angus tour! This is a small registered angus and dry land farming operation. Cultivated ground is used to raise feed and sometimes for fall grazing depending on the year.

This herd started in early 80s with purchase of 5 bred heifers. From there it was expanded to 120 cows. Due to drought over the last few years the herd has been cut back to around 90 cows. The cattle run on non-irrigated pastures and winter mostly on home raised feed. The heifers are bred to calve in the middle of March and cows are bred to calve the end of March early April. Everything is time bred and clean up bulls turned out. Calves are weaned late October early November and fed here at home. I sell 25 to 30 bulls private treaty in the spring starting in late April thru may and 15 to 20 heifers. There are 3 past sires that show up in 80% of the herd, AAR Dash 1802, AAR Ten X 3001 and AAR Justified 6708. Sires of the 2026 calves include LC Lucchese, Woodhill Comstock, Baldrige Badger.

Maloney Angus Simmental

Gavin & Garrett Maloney

PO Box 24 • Turner, MT 59542

(406) 645-7115 • w4angus@hotmail.com

www.MaloneyAngusSimmental.com

The Maloney family's roots in Northern Phillips County, Montana, date back to 1886, when they immigrated from Ireland and settled the open prairie of the Hi-Line. More than a century later, that same spirit of hard work, stewardship, and perseverance continues to guide Maloney Angus Simmental. While many things have changed over the years, one principle has remained constant: good cattle are built by honest people, raised in honest country.

Our operation is centered around producing practical Angus and SimAngus genetics for commercial cattlemen. The foundation of our herd was established through proven Angus cow families selected for maternal ability, fertility, structural

soundness, disposition, and carcass quality. By retaining our best females generation after generation, we've built a consistent cow herd designed to last.

As our program has evolved, we've incorporated modern Simmental genetics through thoughtful

crossbreeding to complement those proven Angus females. We believe the combination creates balanced cattle that offer the maternal strength, longevity, muscle, performance, and efficiency today's commercial producers demand. Every breeding decision is made with one goal in mind: producing profitable cattle that work in the real world.

The country we ranch is one of our greatest teachers. Northern Phillips County is defined by long, cold winters, relentless wind, hot summers, rugged breaks, sagebrush, cactus, and miles between grass and water. Our cattle are expected to thrive under those conditions with practical management and minimal inputs. Cows must calve unassisted, maintain themselves on forage, travel rough country, and consistently raise heavy calves. The environment naturally rewards functionality, and we believe it remains the best selection tool available.

We take great pride in raising cattle that are structurally sound, productive, and dependable. Good feet, quality udders, fertility, longevity, quiet dispositions, and performance are traits that never go out of style. We strive to produce cattle that not only meet the needs of today's cattle industry but continue adding value for years after they leave our ranch.

Relationships are just as important to us as genetics. We value the friendships we've built with fellow breeders and commercial cattlemen and appreciate the trust our customers place in our program. Their success is our success, and we are

committed to standing behind the cattle we produce.

At Maloney Angus Simmental, we believe ranching is about more than raising cattle. It's about caring for the land, respecting the livestock, honoring the generations who came before us, and leaving the operation stronger for those who will follow. We are proud of where we've come from, grateful for the opportunity to do what we love, and committed to producing honest cattle for honest people—one generation at a time.

Nissen Angus

Jeff & Christie Nissen

14615 Paradise Valley Rd • Chinook, MT, 59523
(406)357-2643 • nissenangus.com

Welcome to the 2026 Montana Angus Tour! We are happy to be a part of this event and excited about the opportunity to showcase the great cattle that our area has to offer.

Jeff's involvement in the registered Angus business started in the early 1990s when his dad gave him the pick of a couple heifers purchased from Westwind Angus and Flesch Angus. From those heifers, Jeff grew his cow numbers throughout the years to build the foundation of our herd today.

Christie grew up in the Bear Paw Mountains, southeast of Big Sandy, MT on a commercial cow calf operation. Jeff was raised on the family farm in Harlem and later moved to Chinook. We were married in September of 2009 and have two children, Charley Anne (15) and Tyson (13).

Our annual sale is held the first Wednesday in April at the Blaine County Fairgrounds in Chinook, MT. We typically market around 50 yearling bulls and

have most recently offered some Nissen influenced commercial heifers guest consigned by Christie's family.

We strive to raise functional cattle with muscle and maternal strength that are easy fleshing and easy calving. We also place a lot of importance on structural correctness, carcass traits and good dispositions. The most influential sires we have had in our program came from Sitz Angus, Gartner-Denowh Angus Ranch and Rishel Angus. A lot of our herd's maternal strength can be attributed to these three owned herd sires: Sitz Onward 9007, GDAR Alliance 7407 and B/R New Design 311. Most recently we have utilized Millars Duke 816, LVVF Tanker 14, Musgrave Exclusive 316, Sitz Resilient 10208 and two owned sires from Regency Acres: RA Union 2123 (a U2 Coalition son) and RA Valor 339 (a Sitz Virtue son).

We lease much of our grass in northern Blaine County, which is very different country than what you will find south of Highway 2. It is short grass, rocky terrain with lots of cactus and pits/reservoirs for water sources. We also lease grass on the Ft. Belknap Reservation and mainly run our yearlings there.

We raise all our winter feed on our farm west of Harlem, on some leased hay ground near Zurich and our family farm in Harlem that is owned with Jeff's brother, Mike. We raise oats, alfalfa, millet, barley and grass hay on two center pivots and flood irrigated ground.

Our kids are our main labor force and as they get older, their responsibilities and contributions to the program continue to increase. We appreciate the help from family and friends during sale time and throughout the year as needed.

To learn more about our program, visit us online at nissenangus.com or find us on Facebook, Instagram and YouTube. We look forward to visiting with everyone during the tour!

Legacy Ridge Angus

Cody and Alissa Arnold • Erika Arnold
PO Box 322 • Chinook, MT, 59523

(406)390-5417 • legacyridgeangus@gmail.com
www.LegacyRidgeAngus.com

Legacy Ridge Angus was founded by siblings Erika and Cody Arnold. Our cattle are raised in the Milk River Valley near Chinook, MT. Starting from the ground up, our herd was established with the purchase of two

foundational heifers from the Baldrige-Tiedeman Female sale in North Platte, NE in 2017.

Those two heifers, Baldco Emulota 157E and Baldco Queen Mother 437 have become the genetic cornerstone of our herd along with Top Notch Lady 831 that we purchased at the NILE Angus Female sale from Top Notch Angus.

With the retention of several home raised females that exhibit the maternal excellence we require, paired with industry leading AI sires, our herd size continues to expand and exhibit the traits and qualities we demand.

We are excited with the addition of our new herd bull Vermillion Unified N551 which further strengthens our breeding program, bringing proven genetics, structural integrity, and the performance traits we strive to produce in every calf crop.

Expanding into ET this past year, our donor cows ECA Queen Mother 050 and Baldco Queen Mother 437 continue to provide the strong genetic foundation needed to produce high performing bulls that our customers desire. Be sure to take a look at our ET Legacy Rise Above bull calves that will be on display during our tour stop.

We proudly market our yearling bulls alongside other top producers at the annual Treasure Bull Test sale held on the 3rd Tuesday of each April at the Western Livestock Auction in Great Falls, MT.

We strive to produce and develop high-performing, functional cattle with a calm, gentle temperament, delivering docile bulls that our buyers appreciate.

As young producers just starting out in the registered Angus business, we couldn't do this without the love and support of our parents Jeff & Rhonda. A very special "Thank You" to Marv & the late Patty Nissen-Cross for their guidance of what began as two

4-H breeding projects that has now blossomed into the foundation of Legacy Ridge Angus.

Additionally, we are grateful for Jake Tiedeman and Casey Peterson-Solomon who have helped us navigate our journey from the beginning by always answering our questions and guiding us.

We are looking forward to meeting new customers, greeting familiar faces and catching up with fellow producers on the upcoming Montana Angus Tour.

North Fork Angus

Scott, Fay, Kade, & Katie Friede
1040 North Folk Rd. • Chinook, MT, 59523
(406) 399-3933 • sfriede@hotmail.com

North Fork Angus began building its registered Angus herd in 2001 with a small group of starter cows purchased from a trusted friend, mentor, and neighbor—Ede Breitmeier, a highly regarded breeder of Black Angus cattle. Over the past 18 years, the herd has grown steadily, with a strong and deliberate emphasis on the mother cow.

With a relatively small herd, sire selection must be intentional. Every bull is chosen to reinforce the ideals that define the program: moderate-sized, highly productive cows with longevity, solid feet, functional udders, fertility, and strong maternal instincts. This disciplined approach has created a cow herd known for consistency—uniform in type, dependable in production, and free of surprises.

North Fork Angus is a true family operation comprised of Scott and Fay Friede, along with their adult children—Kade and his wife Katie, Shane, and Morgan. While each family member balances

careers or college commitments, everyone plays an important role in the ranch and contributes to the success of the operation.

The ranch operates along the Milk River Valley on Montana's Hi-Line and north toward the Canadian border. The cattle thrive in an environment defined by harsh weather swings, a short growing season, and long winters. Their ability to perform under these conditions is a cornerstone of the program. North Fork Angus has proudly sold bulls with the Milk River Angus Association since 2004, and visitors are always welcome to stop by and see the cows that built the herd.

North Fork Angus – The Friede Family

The Friede family's journey in the registered Angus business began in 2001 with the purchase of foundation females from respected breeder Ede Breitmeier of E7 Angus. Since then, North Fork Angus has remained committed to producing moderate-framed, maternal cattle that thrive in the challenging conditions of north central Montana.

Our breeding philosophy centers on developing functional, efficient cows with the longevity, fertility, and disposition to withstand the harsh winters and dramatic temperature swings of Montana's Hi-Line. The herd winters in the Paradise Valley east of Chinook and summers on native range near the Canadian border.

North Fork Angus is a true family operation comprised of Scott and Fay Friede, along with their adult children—Kade and his wife Katie, Shane, and Morgan. While each family member balances careers or college commitments, everyone plays an important role in the ranch and contributes to the success of the operation.

Although Montana's Hi-Line is not often considered a travel destination, we believe it should be for Angus enthusiasts. This region is home to an outstanding concentration of high-quality registered and commercial Angus cattle, developed by dedicated cattlemen and women who understand the value of practical, profitable genetics.

Thursday, September 24th

Whistling Winds Angus

Dave & Katie Sattoriva

14504 Road 6 N • Hingham, MT, 59528

(406) 397-3386 • whistlingwinds@hotmail.com

www.WhistlingWindsAngus.com

Welcome to Whistling Winds Angus! It's hard to believe how quickly the years have passed. We began with three years of private treaty sales, followed by 15 years participating in a group sale, and for the past five years we have proudly hosted our annual bull sale here at the ranch. We are also excited to be participating in our third North Central Montana Angus Tour.

After 23 years, I would love to say our cow herd is exactly where we want it to be, but the truth is, we're always working to make it better. Building a great cow herd is a lifelong pursuit, and we continue to improve with every generation.

Our cows spend the grazing season north of Highway 2, beginning each spring on crested wheatgrass before transitioning to native range throughout the summer and fall. Every cow is AI bred in early May, resulting in a February calving season. While this past winter was relatively mild, February on the Hi-Line typically brings plenty of wind and cold. Fortunately, we have the facilities and infrastructure needed to handle those conditions. The cows remain on pasture from late April through the end of December before making the seven-mile walk home for the winter, where they are fed a hay-based ration.

Our annual bull sale is held on the third Monday in March at the ranch north of Hingham, Montana. Bulls are developed at home on a high-roughage, hay-based ration supplemented with Hubbard Feeds Amino Grower pellets and are managed to gain approximately three pounds per day. Each year, we market only the top 50 percent of our bull crop—around 60 head. Quality has always been more important to us than quantity.

Our breeding program is centered on producing deep-bodied, easy-fleshing, fertile females with sound feet and legs, functional teat and udder structure, attractive phenotype, and balanced EPDs that perform in our environment. We strive to develop efficient, productive cows capable of weaning at least 50 percent of their mature body weight while remaining profitable and low maintenance for commercial cattlemen.

Whistling Winds Angus is truly a family-operated farm and ranch owned by David and Katie Sattoriva and their children, Laynie, Riese, and Brea. When we're not working cattle horseback or tending to the farm and ranch, you'll likely find us hunting, fishing, cheering on our favorite basketball teams, or heading off on our next family adventure.

We are proud to share our cattle, our operation, and a little piece of Montana's Hi-Line with you. Thank you for taking the time to visit Whistling Winds Angus. We appreciate your interest in our program and hope you enjoy your time on the North Central Montana Angus Tour. We look forward to visiting with you and welcoming you back again in the future.

Peterson Grain & Cattle

Kim & Nola Peterson

18211 Rd. 325 N • Havre, MT, 59501

(406) 394-2236 • pgc@itstriangle.com

www.PetersonGrainAndCattle.com

PGC is a family owned and operated farm and ranch, located about 15 minutes south of the Alberta/Saskatchewan line. Kim, Nola, Casey (Chancin Solomon), Andee (Richard Laverdure, Laverdure Livestock, Cut Bank MT), and Ben are now raising the 5th generation on the place. Hilbert Peterson (Kim's grandfather) first homesteaded the place in 1912, and it passed on to Russell & Vineta (Kim's parents) before

passing on to him. Today we raise registered Angus seedstock, hay, small grains and pulse crops. Our first registered heifers were bought from Sunrise Angus, Bob & Georgia Larson. We spent over a decade in a cooperative sale, The Northern Premier, with good friends

– Kelly McCracken, Marvin Cross, Dave Sattoriva & Bruce Boyum. We were fortunate to start out with such great producers. As families grew, we chose to move on to individual sales. Our annual PGC bull sale is the fourth Wednesday in March. We also sell bred heifers and cows, private treaty, each fall.

Stephan & Lindsay Boyce

PO Box 453

Chinook, MT 59523

Lrboyce86@gmail.com

(406) 399-1753

Stephen is a fifth-generation rancher who grew up on his family's ranch, located 40 miles southeast of Big Sandy in the Bear Paw Mountains. Today, he and his wife of 13 years, Lindsay, ranch in the Bear Paw

Mountains and make their home in the Milk River Valley with their three children: Wyatt (13), Ruthie (11), and Robert (6).

Stephen and Lindsay met while serving in the military, with Stephen in the Army and Lindsay in the Navy. In 2011, Stephen returned home to the family homestead, and Lindsay joined him the following year. Together, they began building their own commercial cow herd while working alongside Stephen's grandfather, Bud Boyce, continuing the family's ranching tradition. Their focus has always been on producing functional, maternal cattle with longevity, structural soundness, and excellent disposition.

In 2021, they partnered with Clayton Hofeldt to purchase PGC Authentic 0087, a bull that embodied the traits they value most: moderate frame, exceptional feet, a calm temperament, and the eye-catching presence that sets him apart. That same year, they also purchased Hould Juanada 1200, an ultra-moderate, highly maternal 10-year-old cow that has consistently exceeded expectations with every mating. Their breeding philosophy centers on preserving proven, old-school maternal genetics and crossing them with moderate-framed bulls to produce productive, efficient cows built to last.

They continue to work closely with Peterson Grain and Cattle to source new herd bulls that align with their breeding goals, while also utilizing select bulls they have raised within their own program. In 2025, they added an own son of RR Rito 707 from Sinclair Angus, continuing their commitment to adding proven, time-tested genetics that complement their focus on maternal strength, functionality, and longevity.

The combination of these genetics has produced structurally sound, eye-catching calves that stand out in any group. Their replacement heifers are proving to be exactly what they envisioned—females with beautiful udders, correct feet, outstanding temperaments, and the moderate, efficient build needed to thrive in a commercial ranching environment for years to come. As a result, those females have also produced a set of high-quality herd bulls that are moderate, functional, structurally sound, and carry forward the same maternal strengths and longevity they value in their cow herd.

Clear Creek Angus

Teddy & Sara Crowley
34075 Clear Creek Rd
Chinook, MT 59523
ccangus@mtintouch.net
(406) 395-4932 • (406) 399-0403
www.ClearCreekAngus.com

Clear Creek Angus is a fifth-generation family ranch that raises purebred Angus as well as maintain a large commercial cow calf and yearling operation that is in the heart of the Bear Paw Mountains approximately seventy-five miles south of the Canadian border.

This family operation has run commercial cattle for generations and switched from the Hereford breed to Angus in the late eighties. From that time my grandparents Bill and Una Young and parents Ted and Barb Crowley built up as reputable of commercial herd as there is in the state of Montana. They did this by culling hard and selecting bulls not only with a look to them but also with maternal, carcass, and growth merit.

Our purebred herd began in 2002 when we purchased a handful of cows from the Elmore Angus dispersion and the Leachman Angus dispersion. From that time, we have grown our herd to 270 mother cows. We now retain all our own replacements and have developed a herd of mother cows with a type and style to them that we thrive for.

We run our cow herd in big, rugged country that demands a lot out of them and treat them very similarly to our commercial herd. With the extremes in weather we experience and the mountainous terrain we feel this allows our cattle to go into any environment and excel. Mother nature is one of our best deciding factors on what cattle to cull as it takes good structure

and feet to be able to travel the mountains. With that said what mother nature doesn't take care of we do as we cull hard for udder quality and temperament as well. We want a cow that calves unassisted and gets her calf up to nurse promptly, weans a big calf in the fall, breeds back on time, and can do all of this without excessive inputs.

Our 19th annual production sale is the first Monday in March where we offer 80 Angus yearling bulls and commercial replacement females and bred stock from some of our top customers.

Finally, on behalf of Teddy, Sara, Kruz, Jaxton, and Kane we would like to invite you to 2026 MT Angus Tour. Enjoy some great hospitality, great cattle, and even better people!

MY Angus

Merle & Devyn Young
1025 Bentel Divide Road • Lloyd, MT, 59535
(406) 357-3767 • myangus.young@gmail.com

Hello and welcome to the 2026 Angus Tour. MY Angus is a family run operation located 30 miles south of Chinook in the Bears Paw Mountains of North Central Montana. Ranching runs generations deep in our family, and I am fortunate enough to raise my kids along with my wife, in the same house that my

father grew up in. Together with my parents, Gordon and Sheila, are all able to live and work on the ranch together. Devyn, my wife, helps fill in at the 2 one-room school houses we have out here and I work as a hunting guide in the late fall/early winter so we can make everything work.

MY Angus was started in the fall of 2005 when I purchased a registered black heifer as a 4-H project. Taking a non-traditional approach, I have slowly built the registered herd off of that one cow, only purchasing a few elite females from reputable producers when we had the money saved up.

We calve the registered cows in February and March every year and the commercial cows calve from March 20th May 20th every spring. Our summers consist of taking care of cows and cutting hay to feed during the winter. The registered herd gets weaned the 10th to the 15th of October and the commercial herd gets weaned October 20th every year. After weaning we turn cattle out until December for winter grazing, occasionally later, depending on snow conditions.

We market 25 yearling bulls in the North Country Bull Sale on the 3rd Thursday in April every year. Along with my parents, we offer a semi load of no-brand replacement quality heifers out of the heart of the commercial herd. We market the steer calves and 1 load of heifer calves in the June Northern Livestock Video Sale annually.

We live by the motto Quality over Quantity, so we try to find the genetics that focus on fertility and the mother cow, while allowing us to maximize the grass and water we have. Because at the end of the day that's what we are all marketing. Phenotype is very important to us, but a nice pretty cow that doesn't do her job isn't any good; so, we tend to focus on short breeding windows and let mother nature take care of the rest of the culling. While we own some ground, leasing is a huge part of our operation and we are extremely fortunate to have long term relationships with all of our lessors.

I hope to see and visit with everyone on the tour September 24 and as always if you are in the area and want to take a look around, please don't hesitate to give us a call.

Bar 9 Ranch

Clayton Hofeldt

5080 Bentel Divide Rd • Lloyd, MT, 59535
(406) 945-0850 • (406) 357-2358

Welcome to the 2026 Montana Angus Tour! I would like to take a bit to thank all the people and businesses that have helped make this tour possible. If you happen to be in North Central Montana and you stop in at any these businesses, please thank them for supporting the tour and for helping promote agriculture.

It's been a great year here at Bar 9 Ranch, plenty of moisture, the calves are healthy, prices are good and the family has been healthy, what else could we ask for.

Well for those that don't know me, I've grown up here in North Central Montana in the heart of the beautiful Bears Paw Mountains. Our family homesteaded here in the 1890's and I'm the 5th generation living in the original homestead. In 1989 I decided to expand my small herd of commercial cows to include Registered Angus, as part of my FFA and 4-H breeding project. I purchased my first cows from Sitz Angus, Vermillion Ranch, E7 Angus, and KelMCC Angus. Through the years I have AI'd those cows and their daughters to some of the top proven bulls in the industry. My cows have a lot of EXT, Traveler, Dateline, In Focus, Lead On, Efficient, and Really Windy influence. My program now consists of crossing the best of those females to Paintrock Tapper and CAR Chinook 786. Following

that with a cross of PGC Authentic 0087. I now have some of the best females I have calved to date, along with very eye appealing and functional bulls. PGC Authentic 0087 was purchased from Peterson Grain & Cattle, in partnership with Stephen & Lindsay Boyce.

Longevity, profitability, and disposition are three of the requirements that I use to select and cull animals in my herd. My philosophy is to raise a moderate framed, easy fleshing cow with a nice udder, good feet and natural maternal instincts. Our purebreds are run right along with our 400 commercial cows, and get no special treatment, other than run through the barn to get tagged & weighed.

In the past I have sold my bull calves at the Milk River Angus Bull Sale and a handful at the Midland Bull Test. Drought and logistics over the last few years pulled me away from that and now I lease most of my bulls out. We also use our own bulls to breed our commercial herd and cleanup the Registered herd after AI. Replacement heifers are available private treaty from the ranch and then the cull calves get sold with the commercial calves in the fall.

If you see something that you like please feel free to ask more about them. I love talking cattle and learning more from other producers.

Feel free to call me anytime, or stop in to have a cup of coffee and/or take a tour. I always have time to talk to a fellow agriculture enthusiast. Hope you enjoy the Tour!

Shipwheel Cattle Company

Klint, Lori, Austin, & Bree Swanson
2265 Gooseberry Lane • Chinook, MT, 59523
(406) 357-2492 • shipwheelcattle@itstriangle.com
www.ShipwheelCattle.com

The Swanson family from Shipwheel Cattle Company welcomes you to the North Central Montana Angus Tour. We are family owned and operated by Klint & Lori Swanson, son Austin and daughter Bree. Our outfit consists of 2 places. One is the Clear Creek ranch which is 15 miles SW of Chinook and the other is the Snake Creek ranch which is 25 miles south of Chinook on the north side of the Bear Paw Mountains.

Ranching history in Montana runs deep with nearly 250 years combined between our families. Klint's family homesteaded in 1896 on the Rocky Mountain front and his grandpa purchased his first Black Angus cows in 1945. Klint's parents then purchased their first

registered cows in the 1960's and gifted 2 heifers to him in 1984. From these and our purchase of 100 cows from Gale Jellum in 2009, our registered herd has grown to nearly 500 head. We also run 500 commercial cows.

Our focus is on the mother cow. Our entire living depends on her abilities, and we strive every day to improve on them. Our cows calve on grass and are bred on grass. They are not babied and expected to range calve on their own in a 640 acre field. Maternal ability, longevity, udder and feet structure are very important to us.

Our bulls are expected to thrive in rough, steep terrain and never creep fed. They are weaned and put into our own grow yard for the winter with a 2.5lb ADG target. Come spring they go back on grass for the summer and then return to the grow yard in September in preparation for the bull sale. Only the top 40% of the calf crop make the sale and sell with a 4 year foot guarantee.

This year marks our 18th Annual Bull Sale, which is December 9, 2026, with 125 18-month-old bulls offered.

We are truly grateful for the relationships we have made over the years and look forward to seeing you on the tour. Feel free to contact us anytime.

Schmitt Angus

Lane & Scott Schmitt
Box 194 • Chinook, MT, 59523
(406) 390-2275 • schmitt.angus@gmail.com

Thank you for your interest in the 2026 MT Angus Tour. We are grateful for the opportunity to exhibit cattle and build relationships on the tour.

Schmitt Angus is a 1st Generation Angus operation owned and operated by Dr. Lane and Taryn Schmitt with children- Chancin, Tel, Stater, and Lux. It is a family operation with involvement of brother Scott Schmitt and family and parents Dr. Robert and Maureen Schmitt.

This will be the 3rd time exhibiting a small number of cattle on the tour, but a lot of things have changed on our operation since the last tour and we are excited to share with you some of the results. Our cattle will be displayed on the final stop of the tour at Shipwheel Cattle Company.

We started with one 4-H heifer in 2002 and now currently run 100 registered cows, 130 commercial

cows, and 110 yearlings. One of the bigger changes we made was moving our calving date back to April and May. Dr. Lane and Dr. Bob both work primarily as large animal veterinarians, making cattle a 2nd business and it became very apparent that we needed to work more in line with our environment, have the cattle work more for us, and rely on less harvested feed.

Our cows are truly ran in a commercial environment, they run side by side competing with our commercial cows year-round. We do not chase extremes and wish to raise problem free cattle who take care of themselves and their calves and have excellent fertility, fleshing ability, feet, udders, medium frame, and good growth. Every heifer is AI'd the end of June and every cow is AI'd around July 10. We do not own any herd sires and place heavy selection pressure on fertility. To have a replacement heifer or sale bull here, a cow must breed on day one of the breeding season or she raises a commercial baldy steer or heifer calf. We also adhere to a 45 day breeding season with no excuses given to fertility. Our goal is to feed the mature cows for 60-75 days per year and we expect the cows to wean a 6 weight calf on Nov 1. To do so we rely on stockpiled forage for winter grazing and calving on crested wheat pasture in the spring.

Along with our change in calving date, we needed to change how we fed and marketed bulls. We now have yearling bulls available for sale by private treaty. Bull development consists of grazing until Jan 1, long stem hay and 2 lbs of distillers cake per day for a winter ration, and grass turnout April 10th – June 25th. The bulls are not overfed and truly developed with longevity in mind. Our commercial bred heifers are marketed by private treaty and steer calves are marketed on NLVA every fall. We hope to see you on the 2026 MT Angus Tour.

Beef Country Genetics Sale

One of the largest Efficiency Tested
bull sales in North America

DECEMBER 2, 2026

WEDNESDAY - 1:00 PM
Midland Bull Test, Columbus, MT

150 Fall and Coming Two-Year-Old Bulls
70 commercial bred heifers

Also selling our younger aged Registered
spring calving cows

Do the Math!

Efficiency-proven genetics offer up to 20% more savings on the cow herd... and 20% more savings in the feedlot, while still maintaining the same weaning weights.

It doesn't cost you any more than making sure you are using the right bulls and the right program.

MATERNAL Research from Canada, Australia, Texas A&M, University of Florida, Montana State University - Dr. John Patterson, University of Missouri, University of Illinois... have all shown efficiency gains of 10-20% in females tested to be negative RFI or sired by negative RFI bulls with no impact on weaning weight, fertility or yearling weight.

"By stacking generations selected for RFI improvement, greater than 20% in production efficiency can be achieved."

- Dr. Monty Kerley

That's over \$100/head savings in pasture and wintering costs.

STOCKER-GRASS A 20% savings in wintering and pasture costs can easily yield another \$90/head.

FEEDLOT Improvements in feed conversion have been proven up to 20%. Just a 15% improvement would be over \$150/head savings.

McD Effective 789

CED +6 BW +2.0 WW +67 YW +128 MILK +23 MARB +1.08 RE +.45
One of our high-efficiency tested bulls in 2018. His sons and daughters have impressive phenotype, and his daughters have great udder and small teats. Top 4% of Vytelle/GrowSafe data base for RFI efficiency, top 10% for combined foot score, top 20% for Marbling. Promogen score 5.5.

High-value calves
deserve better than

“Pretty Good”

Pretty good scours protection isn't good enough when you need a calf to reach its genetic potential. Protect your calves from *E. coli*, rotavirus, and coronavirus with the immediate immunity from hyperimmune colostrum antibodies – available only from First Defense. Advance calf health by protecting every calf, not just those that respond to a vaccine. Learn more at ImmuCell.com

Cut Back Cattle Co.

Pretty Good

Calves Sold Here!

For over *five* decades, our *family* has *focused*
on building a *foundation* with a *functional* cowherd.

Add *efficient*
functionality
to your herd!

*Because I have to pay for land selling calves, I have to be a low input, least cost producer focused on profit.
 That means smaller cows, more of them, producing more pounds per acre, sold at a higher price per pound.
 Smaller pastures, grazing longer, feeding less. Calving later with more live calves, fewer cull cows, fewer replacements
 And it means using my own bulls.*

TURNER ANGUS

**Raising Line Bred, Low Input,
 No Maintenance, Hands Free,
 Grass Cattle**

Common Sense Cattle Designed to Work for a Living

Paturn 19 of 810 528

THE FINAL SORT

A Blueprint for YOUR Program!
No Shortcuts. Just Results.

Our test is designed with
the economically conscious
cattleman in mind.

We don't chase every number.
**WE BUILD BULLS THAT ARE
PROVEN WHERE IT COUNTS.**

RECEIVING DATES FOR 2027 TEST:

GROUP 1:

Sept. 9-19, 2026

GROUP 2:

Oct. 7-17, 2026

THE FINAL SORT

A comprehensive plan of action
for today's cattle operators.

THIS IS HOW A BULL FROM MIDLAND BULL TEST IS CONSTRUCTED

EFFICIENCY

Individually tested
for feed efficiency
and performance to
maximize profits

PERFORMANCE

Measured under real
conditions - against the
best in the country - so
you know they'll deliver
in your program.

STRUCTURAL SOUNDNESS

Built on a foundation of
longevity, fertility and function.

PROFIT-DRIVEN

Identifying the
genes that can do
more with less.

THE FINAL SORT

Only bulls that achieve
our high standards
make the cut.

**CONSTRUCT YOUR HERD USING AMERICA'S LARGEST OFFERING OF
EFFICIENCY-TESTED BULLS.**

HERE'S TO *Sale Day.*

Here's to the breeding decisions made years ago.

Families building something worth passing on.

The coffee, the conversations, and the friendships built along the way.

The pride of presenting your very best.

The anticipation as the first lot enters the ring.

The excitement of finding the one you've been looking for.

The nod across the ring.

The auctioneer's call - **SOLD!**

The handshake where two ranches become part of each other's story.

Thank you for making Ballyhoo a small part of yours.

FALL 25 - SPRING 26

TRUE BLUE.

“I firmly believe in the product.”

— Dan Byrd

At Byrd Cattle Company, Dan Byrd expects better than average embryo conception rates. With proper nutrition and Vitalix tubs placed out as part of their protocol, they continue to see embryo conception rates climb into the 75–80% range.

SATURDAY | OCTOBER 17, 2026 | 11 AM MDT

BILLINGS LIVESTOCK COMMISSION | BILLINGS, MONTANA

*Selling
Proven Donors
Elite ET Heifer Calves
Powerful Bred Heifers*

Basin Rita 2003

20342671

Best known as the dam of the \$120,000 top seller Basin True Balance 4002. Her \$328,250 of progeny sales include five sons sold for an average of \$52,000 and four daughters have sold for an average of \$17,600. This prolific power donor sells with her natural heifer calf by Basin True Value 3017 and an amazing full sister to Basin True Balance 4002.

G.D.A.R. Blackcap Lady 2258

20392248

Selected as the pick of the ENTIRE 2022 Gartner Denowh heifer calf crop. Her first natural son, Basin Macallan 4179, along with his two full brothers, Basin Black Barrel 5017 and Basin Macallan 25 have headlined our recent bull sales, selling for an average valuation of \$87,500. A flush sister to those bulls will be a featured bred heifer in this sale, and a Pollard Hennessey 3920 daughter will be a featured heifer calf. The sale will also include two of the first daughters of her son, Basin Macallan 4179.
